W1419-2 and W1419-3 (Expiration Date 12/06/05)

Instructions For Complying With Recall

April 5, 2004

BACKGROUND

Aventis Pasteur is initiating a voluntary recall of Imovax® Rabies, Rabies Vaccine (Human Diploid Cell), lot numbers X0667-2, X0667-3, W1419-2 and W1419-3. We will credit your account for any remaining inventory of these four lots that you have on hand.

Please stop using lots X0667-2, X0667-3, W1419-2 and W1419-3 immediately and return all remaining inventories.

No other distributed lots of Imovax® Rabies, Rabies Vaccine are affected.

PRODUCT ACTION

We request that you examine your inventory to determine if you have any remaining stock of the recalled lots. Please return the reply card whether or not you have remaining doses to help us determine that all existing stocks have been returned.

Enclosed with this letter is a postage-paid shipping label and a packing list with instructions on how to return the product.

PATIENT ACTION

Please refer to *Medical Opinion from Aventis Pasteur Regarding Management of Patients* for complete medical information.

Aventis Pasteur will provide Imogam® Rabies-HT, Rabies Immune Globulin (Human) USP, Heat Treated and the necessary additional doses of IMOVAX rabies vaccine at no cost for those patients who meet the criteria in the Medical Opinion document. You will need to contact the Aventis Pasteur Medical Information Services department at 1-800-835-3587 to obtain this additional product.

ADDITIONAL ASSISTANCE

Aventis Pasteur will provide you with additional communication materials upon request. Please call us at 1-800-335-1349 for these items.
